## Introduction and methodology

### Contents

This questionnaire was completed online by Young Persons (YPs) through Bristol Online Surveys (BOS: <http://www.survey.bris.ac.uk/>). Screenshots of the questionnaire are included in an appendix at the end of this document (pp.66-71).

The questionnaire comprises eight webpages, three of which are administrative and contain no questions (pages 1, 2 and 8 – see appendix). Questions 1 – 5 ask how much of YPs' time is occupied by Internet use. Question 6 asks what kinds of material YPs have encountered when using the Internet. Questions 7 – 14 ask what online sites/services YPs use. Questions 15 and 16 ask about YPs' opinions with regard to online privacy. Questions 17 – 19 ask about YPs' membership/use of social networking sites. Question 20 asks about restrictions YPs' parents may have placed upon their Internet use.

In the dataset variables CCXC001 to CCXC006 concern the administration of the questionnaire, CCXC010 to CCXC452 form the data of the questionnaire itself and CCXC500 to CCXC801 form the standard data provided for all core cases on all YP datasets regardless of whether each core case completed the questionnaire or not.

Frequency tables for CCXC001 to CCXC452 are included below. No coding instructions are included as these are not necessary for an online questionnaire. Editing instructions are uniform unless otherwise stated. The uniform instructions are detailed on p.5.

### Questionnaire versions

There is only one version of this questionnaire.

### Administration

A letter was sent to YPs with a password to access the questionnaire on the BOS website. The letters were sent on the following dates in the corresponding quantities:

Date	Quantity
04/03/2010	500
09/03/2010	500
30/03/2010	1000
19/04/2010	1000
29/04/2010	1000
18/05/2010	2000
08/06/2010	2000
01/07/2010	1000
02/07/2010	787

9787 letters were sent out in total. No reminders were sent.

### Sample & response rates

There are a total of 14,746 records on this release file. This number is made up of the 14,676 fetuses in the core ALSPAC sample (regardless of whether they were sent the letter or completed the questionnaire) plus 70 eligible YPs not in the core sample for whom questionnaires were sent out (non-core cases who were sent a letter but did not complete the questionnaire were not included).

Of the 14,676 fetuses in the core ALSPAC sample 14,062 were live born. The letter inviting YPs to complete the Internet Use questionnaire was sent to 9,299 (66%) of these YPs. As of 8<sup>th</sup> February 2011 the online questionnaire has been completed by 1,514 (16%) of the live born YPs in the core sample who were sent the questionnaire. Including the additional cases not in the core sample this gives an overall response rate to date of 17% (1,584 responses from 9,369 total invitations).

ALSPAC Internet Use Survey

**Welcome to the ALSPAC Internet Use On-Line Survey**

We are conducting a study into how young people use the Internet, and would like to ask you about the sites you use, what you use those sites for, and how you manage any risks you encounter online. We are interested in this information because we want to understand not only how you use the Internet, but also how we might be able to make it a better place in the future.

The survey is completed anonymously, can be saved part way through and takes around 12 minutes to complete. We will be able to link this survey with other data that you have contributed to the ALSPAC study.

If questions turn grey, it means that they won't apply to you so please don't answer them!

**Note that once you have clicked on the CONTINUE button at the bottom of each page you can not return to review or amend that page**
