

Mitigation Statement – db16654

Event/Issue	Potential/actual Impact on project	Action(s) taken to mitigate impact on project outcomes	Remaining impact
1. Unable to conduct face to face meetings both as a group and with the supervisor.	Small impact in communication between group members	Weekly skype meeting throughout the project length while maintaining communication via a group chat to update progressively.	Minor impacts in communication, however it has not impacted on the modelling made.
2. Extensions of deadlines across modules	All members of the group impacted by unexpected overlaps in deadlines as a result of extensions	Continuous communication of each members situation to be able to pickup work where others are concentrating.	Minor impacts towards the end of the project. However most of the foundations of the project were completed before this.
